THE QUANTUM SPACETIME SEMINAR SERIES

Small step towards computing all loop exact arbitrary m to n scattering amplitude in Chern-Simons matter theories

Sachin Jain
(IISER, Pune)

Date: Aug 17, 2017
Time: 10.00 am
Venue: A-304, TIFR

In this talk, we will discuss few interesting observations such as BCFW recursions, dual conformal invariance etc in scattering matrix of Chern-Simons matter theories. We will discuss how this might be helpful in computing all loop exact arbitrary m to n scattering matrix.
