THE QUANTUM SPACETIME SEMINAR SERIES

Holography and spacetime singularities (Zoom Seminar)

David Kutasov

(University of Chicago)

Date: November 23, 2020

Time: 10:00 am IST

Zoom link shall be shared separately

The recent progress in $TT\bar{c}$ deformed CFT and generalizations may shed light (via holography) on the physics of spacetime singularities in string theory. I will discuss our work on this subject, and some generalizations to higher dimensions.
