THE QUANTUM SPACETIME SEMINAR SERIES

Stress tensor sector of conformal correlators

(Zoom Seminar)

Andrei Parnachev

(Trinity College, Dublin)

Date: March 29, 2021

Time: 4:30 pm IST

Zoom link shall be shared separately

We consider the contribution of the stress tensor composites to correlators in CFTs with a large number of degrees of freedom, including holographic CFTs. We discuss implications for holography and thermalization.
