THE QUANTUM SPACETIME SEMINAR SERIES

Large charge asymptotic expansion for superconformal indices

(Zoom Seminar)

Davide Gaiotto

(Perimeter Institute)

Date: January 17, 2022

Time: 6.00 PM IST

Zoom link shall be shared separately

I will review a peculiar systematic reorganization of the superconformal index of large N gauge theories. The final expression holds for any value of N . Holographically, it appears to sum up contributions from supergravity modes and giant graviton branes.
