THE QUANTUM SPACETIME SEMINAR SERIES

Black hole interior reconstruction from radiation

Roji Pius

(IMSc, Chennai)

Date: February 3, 2025

Time: 11 AM IST

Venue: A304

Zoom link shall be shared separately

In this talk, we will discuss the reconstruction of the interior of an eternal AdS_2 black hole in thermal equilibrium with a bath. We will argue that after Page time the interior can be reconstructed from the radiation in the bath using a slightly modified version of the interior reconstruction proposal of Leutheusser and Liu.
